Montgomery county court day special leaves Rothwell on the 3rd Monday in each month at 7:30 A. M., arriving at Mt. Sterling at 9 A. M., returning leaves Mt. Sterling at 3 P. M., arriving at Rothwell at 4:30 P. M.
Leaves Rothwell for Mt. Sterling at 5 P. M. GEO. B. HARPER, Supt.

LOCAL NEWS.

Alfred Combs' majority over Patrick in this district is 1531, and Taulbee's majority over Hurst is 746.

John Evans has added another flower to his flock; a girl with dark lashes and luminous blue eyes. John's a hummer.

Subscribers will please excuse our crowded columns this issue. Just as soon as possible we will begin to print both sides of our paper at home.

Mrs. Mary Nickell's school, of Ezell, is advertised in this issue, and friends of education in that section should give her a liberal patronage.

We are this week compelled to omit all correspondence, but will give as much as possible in next issue and hope soon to be able to print a full paper.

The Weekly New York World and THE HERALD, with a 320-page History of the United States will be mailed to any address one year for \$2.00.

See our proposition published elsewhere, in which we propose to send THE HERALD one year, and forty-five books, postage prepaid, for only \$2.00, and subscribe now.

FOR SALE.—W. T. & L. C. Caskey, Hazel Green Ky., have a distillery outfit, consisting of one still and worm, 40 good tubs, pumps, &c., which they wish to sell or trade on reasonable terms.

The Kentucky Union railroad has been sold to the Standard Oil Company. This company is one of the richest in the United States and the prospect for the early completion of the road is very good.

Rev. J. R. Wheeler, who preached at the Methodist church on last Saturday night, began a meeting at the Home school house, on Lucy creek, on Saturday before the 4th Sunday in this month at 11 o'clock A. M.

Be certain to read the advertisements of Mr. Mt. Sterling friends in this issue, and when you visit that city be certain to deal with them only. They are all reliable, honest, and you can save money by spending money with them.

Hazel Green Academy is advertised in this issue, and is located on January 3d with a competent corps of teachers; and every parent should see to it that their children enter with the year. This is fast getting to be the best school in the land.

See the advertisement of Hazel Green Academy and send your children there to be educated. This institution is doing a great work for this section and should be patronized liberally. We will next week speak more fully of the enterprise.

W. Y. Demaree will begin a select school at Campton January 3rd, 1887. He respectfully invites the patronage of teachers and other friends of education. Maps, charts, comfortable room, thorough instruction, and reasonable rates are some of the inducements offered. For further information write to Mr. Demaree at Campton.

We have a word of kind advice to the various will-be candidates for state offices, which is this: If you want the mountains of Eastern Kentucky to know of your candidacy you can reach more voters through an announcement in THE HERALD than any other paper in the State. Our column for announcements is open and terms reasonable.

A party of hunters composed of T. P. (John) Winn, J. D. Reese, E. O. Jonett and John McClintock, from Winchester, chaperoned by John Spaniard Nickell, bagged 354 partridges here last week, and claim that they could have done better but for their small shot. They say there are more and larger birds here than in any country they ever hunted.

It won't do to get drunk on green whisky, especially if it was incubated by the pale rays of the moon. Let the truck season a few days and it won't have such an uncontrollable tendency to reduce your spinal column to the flexibility of a buggy whip. If you want to go round like an old fashioned pair of winding blades, and have your coccyus bobbing up and down like the head block of a flax break, just get your anatomy on the outside of green up-the-hollow-hand-made-sour-mash whisky, and you will have it to your heart's content. We've been there—Licking Valley Scorchers.

When I read the sorrowful lines which announced the death of the excellent wife of Prof. N. B. Hays, at Wichita, Kan., recently, I sadly realized the melancholy truth that the best of men had been called to another sweet life had gone out, another star had been blotted from the horizon of social life, and another Christian called to the endless enjoyment of the unseen in Paradise of our God. To me she was more than friend, and from the emotions of a heart full of appreciation for her womanly virtues and love for her pure christian character, I wrote this chapter to her memory, bedew it with tears and lay it beside the flowers which the hands of affection will plant upon her new made grave.

LULA M. PHILLIPS.

WOLFE COUNTY.

THE LAND WE LOVE AND THE LAND WE LIVE IN.
An Imperfect Pen Picture of Places and People.

CAMPTON.
CAMPTON, THE COUNTY SEAT,
of Wolfe county, was located about twenty-six years ago, and is situated at the fork of Swifts Camp Creek, a tributary of Red River, being eight miles from the North Fork of Red River and ten miles from the North Fork of the Kentucky River. It is situated near the center of the county. There are various kinds of water are found in the same locality, which if properly improved would make Campton one of the greatest watering places of this State.

Just north of the town and within a half-mile of the court-house is the line of one of the finest belts of timber and mineral countries known in the world, and one which is destined to be one of the great sources of wealth to the State. The timber is of several varieties but consists principally of white and yellow pine, though we find a large amount of almost every variety of timber especially poplar, oak and walnut. The belt that contains this pine timber is about 20 miles wide and 40 miles long. There is stone suitable for building purposes of the finest quality and in unlimited quantity, while minerals of all kinds abound. Iron, silver and gold exist, most notable of which is the bank developed by Mrs. Timmons. There are many places in the belt grand and picturesque, notable of which is the Indian Stairway, a cliff 200 feet or more high; the Light House, the Natural Bridge across Swifts Camp Creek and Devil's Race Track and the Devil's Kitchen.

Within 400 yards of the court-house is a coal mine, which supplies all the fuel for Campton and the surrounding country and supply for 20,000 inhabitants, while four miles south of town is the famous Hobbs coal mine. Only one mine in the United States equals it. It faces six feet in the ground and is one of the best coking coals that our State Geologist has ever tested. There are numerous veins that have been opened through the entire country. The town is beautifully located in a valley surrounded by hills on either side overlooking the town. The country is thickly settled, the soil is productive and adapted principally to corn, wheat, oats and grass, red clover and herd grass being most successful. Fruit of all kinds is grown by the farmers to a limited extent but yields well. It is adapted to fruit, and one of the finest grape countries on the globe. We would gladly welcome men of enterprise to develop and improve our country, and get our present inhabitants out of their foggy ideas. Six public roads lead into Campton. There is one church building, which belongs to the M. E. Church South, though occupied by three other denominations, Christian, Baptist and Methodist. There is a school building, a hold regular services once a month. There is a prosperous Union Sabbath School which all denominations attend, and much credit is due the worthy and efficient S. S. Combs, for his faithful work. The following is the membership of the several churches: M. E. Church, 120; Christian, 52; Baptist, 25; M. E. Church, 120; Christian, 52; Baptist, 25.

tucky, and so popular has this hostility become with commercial tourists that it is now dubbed the "Drummer's Dream." The proprietor is "fair, fat and forty," and is known as the most versatile and liberal handler of truth in the State. The yarn, in fact, that he can not spin has neither chain nor filling, but not so with his wife. She sets the best table, is polite, courteous and affable to all, to the extent that Mrs. Pieratt is known far and wide as the "caterer to the commercial commissary."

J. T. & F. DAY.
Established in January, 1883, carry a stock embracing in the aggregate more than any firm in Eastern Kentucky. They buy largely for cash and are enabled to sell at a low profit to prompt paying customers. Several separate departments are devoted to dry goods and notions, hats, caps, boots, shoes, clothing, furniture, drugs, &c., &c. each of which is presided over by a gentleman selected for his special fitness. Promptness in delivering goods is made a feature, and any inattention or impoliteness on the part of an employee, if reported, will be promptly corrected.

G. R. SWANGO
Deals in dry goods, notions, boots and shoes, clothing, stoves and tinware, in fact, keeps constantly on hand a well selected stock of every thing that is usually kept in a first-class general store. Will sell cheap for cash and no trouble to show goods.

F. MOQUIRE
Keeps a general assortment of dry goods, groceries, hardware, &c., and has by honest, fair dealing built up a good trade.

W. T. CASKEY
Dealer in general merchandise keeps a good assortment of goods and receives a liberal patronage.

RED RIVER PRECINCT.
The neighborhood known as Red River voting precinct was attached to this county from Morgan county in the winter of 1877-8. It was formerly known as the Red River mining grounds, and about the year 1860 there was not exceeding 12 voters in the boundary. There were, until eight or ten years ago, quite a number of deer in that neighborhood, where the boys usually went to have a chase. This wilderness is being rapidly converted into cultivated farms and being settled up by industrious working-men, who are clearing out fields and building houses in every hollow. At this time it is a voting precinct of nearly 100 voters, has a fine steam saw and grist mill, five water mills, five school houses, and one church. It is filled with fine farmers, and is passing through would at once take it to be an old settled country. The forests are of the finest poplar and walnut known in the State as well as all other varieties of timber, and all they need to make the most prosperous and wealthy part of the county is a railroad for transporting the timber in the section. There is also plenty of coal, which is sold to the farmers, and is ranging from three to five feet in thickness.

Statistics of Wolfe County.

The Auditor's report for 1886 shows as follows: There are 1,306 voters, 2,235 children between the ages of six and twenty years, 17,049 acres of land valued at \$48,333, 90 town lots valued at \$36,108. We have 1,172 horses valued at \$86,061, 284 mules valued at \$16,470, 3,443 sheep valued at \$5,307, 4,649 calves valued at \$7,284, 3,735 cattle valued at \$40,253, 2,047 hogs over six months old, 22 stoves and jacks, 58,145 pounds of tobacco, 885 tons of hay, 173,785 bushels of corn and 25,000 bushels of wheat. The valuation under the equalization law is \$76,808, value of pleasure carriages \$769, value of gold, silver ware, &c., \$4,256. The total value of property as assessed is \$743,439. Amount of revenue paid to the State is \$3,177.51. Our population in 1880 was 5,658. We have 17 pauper idiots who draw \$75 each per annum from the State, and 1 pauper idiot. These figures were taken one year ago. Our voting population is now 1,327, the inhabitants will number over 7,000, our assessed property will (as indicated by the assessment) now be valued at \$743,439. Amount of revenue paid to the State is \$3,177.51. Our population in 1880 was 5,658. We have 17 pauper idiots who draw \$75 each per annum from the State, and 1 pauper idiot.
